SMARTSTATION THIN CLIENT BENEFITS

GREEN

Lower power consumption for energy saving and reduce CO2 for earth saving.
Our products focus on reducing, reusing and recycling materials used in our manufacturing operations.
Our environment compliance effort including ISO 9001:2008 Certification.

DURABLE

Fanless design for long life span, noise free and higher system reliability. Our thin client components are used industrial level and solid parts for long lifespan.

ECONOMIC

Lower power cost of ownership (TCO): Save more than 50% off cost than using traditional desktops for energy saving and maintenance cost saving.

SECURE

Since the software becomes entirely confined to the servers, thin clients are protected from the use of unauthorized software or the introduction of viruses, Unlike PCs and traditional laptops, thin clients are locked down and offer greater security against theft, damage, malware, spyware and viruses.
